**8<sup>th</sup> December 2006**

FOR IMMEDIATE RELEASE:

## ***Industry heavyweight to speak at Model-Driven Development event***

Dr. Axel Uhl of SAP AG has been confirmed as a keynote speaker for next year's Code Generation 2007 conference.

Dr. Uhl has been with SAP AG since June 2004, crafting the architecture of SAP's Modeling Infrastructure (MOIN) and is currently Chief Development Architect in SAP's Product Architecture unit. In this role he works on the architecture of SAP's tools, repositories and programming models.

Before Dr. Uhl joined SAP, he worked for almost five years at Interactive Objects Software GmbH, as architect of their ArcStyler Model-Driven Architecture product - a product that puts emphasis on the design, implementation, maintenance and re-use of model transformations.

[Code Generation 2007](#) will bring together leading software developers, vendors and consultants from 18th - 20th May 2007 at Cambridge's Homerton College. Cambridge-based Software Acumen, operators of the web's number one free resource on Code Generation – the Code Generation Network - are organizing the event.

The full event programme is under development but will include panels, tutorials and other sessions from thought-leaders in the field of Code Generation, Model-Based Development, Software Factories and other related areas. The deadline

for submission of session proposals is **12th January 2007**. Accepted session leaders will have their conference fees waived. Visit the CG2007 website for more information.
