FOR Release 18th January 2008, 18:00:

Executable UML specialists generate interest at CG2008

We are pleased to welcome Kennedy Carter as Silver sponsors for Code Generation 2008.

Kennedy Carter provide a complete solution to help organisations use the OMG's Model Driven Architecture (MDA) approach to system development using Executable UML specifications. Their solution includes a comprehensive suite of modelling and code generation tools.

[Code Generation 2008](#) brings together industry experts and leading vendors from areas such as model-driven development, software factories and domain-specific languages in a three-day event covering the practical application of code generation tools and technologies.

The event takes place in Cambridge, UK from June 25th-27th 2008. For more information visit the [Code Generation 2008](#) web site.
